

A team in motion.

We are leaders in the development and installation of customized control solutions in the field of intralogistics. Our teams are active throughout Europe and work in a family-like environment that respects the value of their performance. At our site in Ettlingen, we employ around 200 people from over 28 nations. Our international clients, such as Amazon, DHL, Kaufland, Würth and Berlin airport, appreciate our modern work mentality and have been relying on our support for years.

Join us in shaping the intralogistics solutions of tomorrow and become part of our team in **Ettlingen, Baden-Württemberg** as:

Project Manager Automation Technology (all genders) - full-time (40 hrs)

Where you keep things moving

- **You will work closely** with all specialist departments, from sales through to commissioning and visualisation. You will coordinate the technical, scheduling and financial requirements with our external partners
- **You will plan, lead and manage our automation technology projects** and be responsible for their complete execution in line with schedule, quality and cost targets
- **You will be the point of contact for all enquiries** – for end customers, cooperation partners and internal specialist departments alike

- **You will review tender documents, draw up the specifications** and monitor technical development targets in line with the contractual agreements with the customer

How to reach your destination

- **A degree in Electrical Engineering**, Mechatronics or Automation Engineering
- **Substantial experience** in managing projects in the field of automation engineering, ideally in intralogistics, as well as in the design and commissioning of electronic drive technology, fieldbus systems and PLC controls
- **Good knowledge** of logistics processes and leading project teams comprising members of different nationalities, as well as strong teamwork skills and good to very good command of English
- **A solution-oriented, reliable** approach to work, with a high degree of personal responsibility within projects
- During the project phase, the role **involves travelling** to the client, partner companies or end customers

Benefits all the way

- A **structured onboarding process**, personalised mentoring and professional dialogue with colleagues will ensure you to get off to a good and clear start

Not yet in Ettlingen?

We will help you to settle in quickly, no matter what stage of life you are in – we will find a solution. If you move to Ettlingen, you will receive a relocation allowance from us. If you are not yet proficient in German or English, you can take part in language courses free of charge. There is also a subsidy for childcare, because it is important to us that your family feels at home here.

Your salary will depend on your qualifications and experience and will be discussed with you personally.
