

A team in motion.

We are leaders in the development and installation of customized control solutions in the field of intralogistics. Our teams are active throughout Europe and work in a family-like environment that respects the value of their performance. At our site in Ettlingen, we employ around 200 people from over 28 nations. Our international clients, such as Amazon, DHL, Kaufland and Berlin airport, appreciate our modern work mentality and have been relying on our support for years.

Join us in shaping the intralogistics solutions of tomorrow and become part of our team as:

Mechanical Site Manager (all genders) - full-time (40 hrs)

Where you keep things moving

- You will be responsible for all **aspects of work planning**, monitoring **material usage** and ensuring comprehensive **documentation**
- You will lay the **groundwork** for a smooth start and, in collaboration with the project and installation management teams, clarify the installation procedures, staffing requirements, tools, lifting equipment and necessary **site facilities**
- You think beyond your own area of responsibility and coordinate the **mechanical interfaces** with subcontractors, steelwork, electrical installation and commissioning

- You keep a close eye on **deadlines** and **quality** and ensure that our **project specifications** are met – always with a focus on health and safety and legal requirements
- You ensure that the **installation** is carried out correctly and check that work is carried out to the required standard against drawings, installation instructions and **project specifications**, whilst documenting **progress** and any deviations
- You step in when things get stuck: missing or faulty materials? It's up to you to **coordinate the solution** so that work on site can continue
- You oversee the **site** right through to **handover**, coordinating mechanical tests and inspections, identifying outstanding issues and following up on their resolution

How to reach your destination

- **Training** in the field of **mechanics** / **metalwork**, ideally with **further training** to become a **technician** (m/f/d) or **master craftsman** (m/f/d)
- **Several years' professional experience** as a site manager / installation manager in intralogistics, plant engineering / steel construction or conveyor technology is required
- **Proficiency in working** with technical drawings, assembly plans and parts lists
- A **focus** on quality, and the ability to work independently and responsibly
- Very good command of **German** and a good command of **English**
- **Willingness to travel extensively** (100 per cent of your working hours) and a Class B driving licence

Benefits all the way

- A structured onboarding process, personalised mentoring and professional dialogue with colleagues will ensure you to get off to a good and clear start
- Company car and company phone, also for personal use
- With our **"business trip carefree package"**, we will take care of transfer, flight & accommodation so you can fully focus on your tasks. You will also benefit from our **10/4 rule: 10 days on, 4 days off** - giving you **time to relax** and recharge your batteries
- Depending on your qualifications and experience, this position offers a gross monthly salary ranging from €4,400 to €5,500 (full-time)

Familiäres Umfeld

30 Tage Urlaub

13 Gehälter

Weiterentwicklungs-möglichkeiten

Betriebliche Altersvorsorge

Prämien & Geschenke

Not yet in Ettlingen?

No problem – for this position, it doesn't matter where you live since you'll be traveling a lot. Your onboarding will take place in Ettlingen, where you'll get to know our team and your responsibilities. If you wish to move to Ettlingen permanently, we're happy to support you with a relocation allowance. If you are not yet proficient in German or English, you can take part in language courses free of charge. There is also a subsidy for childcare, because it is important to us that your family feels at home here.
