

A team in motion.

We are leaders in the development and installation of customized control solutions in the field of intralogistics. Our teams are active throughout Europe and work in a family-like environment that respects the value of their performance. At our site in Ettlingen, we employ around 200 people from over 28 nations. Our international clients, such as Amazon, DHL, Kaufland, Würth and Berlin airport, appreciate our modern work mentality and have been relying on our support for years.

Play a key role in ensuring the success of our projects and join our team in **Ettlingen, Baden-Württemberg**, as:

Layout Engineer (all genders) - full-time (40 Std.)

Where you keep things moving

- **You will develop** precise, implementation-ready system layouts in AutoCAD for new builds, conversions and the modernisation of existing customer facilities within an international project environment.
- **You will analyse** existing **system configurations, material flow** and site-specific conditions, and develop competitive mechanical **layout concepts** that optimally support technical and commercial solutions.
- **You adapt layouts** quickly and effectively – based on **customer feedback, design iterations** and dynamically evolving requirements during the quotation and sales phase.

- **You work** closely and across departments with **engineering and project teams** to ensure the smooth integration of **proposed layout adjustments** into existing systems.

How to reach your destination

- A **degree in mechanical engineering** or a qualification as a **technical draughtsman**.
- **Experience (min. 3–5 years)** in layout engineering, mechanical design or a similar technical role in the field of materials management or logistics automation (DIN EN 619).
- Excellent knowledge of AutoCAD is essential; knowledge of Inventor or SolidWorks would be an advantage.
- Strong analytical, problem-solving and communication skills, including in English.
